HOTEL LOCATION

Our lodge is located 180km/111mi from Manaus, in a region that is a real wildlife sanctuary: on the Rio Negro banks, across from the Anavilhanas National Park, a UNESCO Heritage Site with more than 3.5 billion square meters of preserved forest.

A REAL PARADISE

The Amazon rainforest comprises a huge territory, and our lodge is located in an exceptionally privileged area.

As opposed to what many people imagine, you will practically not find mosquitoes here.This is because the water pH of the Rio Negro is acidic, making its proliferation difficult.

Bring your repellent for the trails in the forest, but it will not be necessary during boat trips. This feature also makes your stay safe from tropical diseases. Now that's peace of mind.

YELLOW FEVER VACCINE. YES OR NO?

As per details explained above, the yellow fever vaccine is recommended, but not mandatory. A worth reminder: this is a lifelong immunity vaccine and no boosters are needed, in case you have already taken it at some point in your life.

HOTEL DIRECTIONS

The city of Manaus' Eduardo Gomes International Airport (MAO), is the main hub for accessing our lodge – there are daily flights from major Brazilian domestic airports, as well as some from international airports abroad. Our transfer service to the lodge departs from the airport or from hotels in Manaus, according to your itinerary.

HOTEL DIRECTIONS

LAND TRANSFER

Our rates include round-trip land transfer from Manaus in vans with seating capacity for up to 12 passengers.

We offer two complimentary daily departures from Manaus to the lodge and back to the airport on a set schedule.

The road is paved, and in safe stable conditions along the entire route – it takes about 3 hours to travel each way with a short stop, in a modest establishment, for a bathroom break.

Another important reminder: we do not make this trip after dark, even if the option is a private transfer.

Please check the timetable to plan your trip and, as soon as you have your flight or hotel information please contact our Reservations Center, so that we can schedule your arrival and departure.

If your schedule does not coincide with our transfers, you can hire private transfers on separate terms, or take the opportunity to layover in Manaus. In that case we recommend you to stay at Villa Amazônia, which is a hotel located in the historic city center, just a few steps from the theater – further info on page 11.

COMPLIMENTARY LAND TRANSFER TIMETABLE

MANAUS > LODGE	**BETWEEN 8AM - 8:30AM** departure from the main hotels in Manaus	**BETWEEN 1PM - 2:30PM** departure from the airport
LODGE < MANAUS	**8AM** departure for guests who have a flight between 1PM and 6:30PM	**1:30PM** departure for guests staying in Manaus or booked on flights from 6:30PM

TRANSFER BY SEAPLANE

Guests who wish to arrive sooner and enjoy the Anavilhanas Archipelago from a spectacular aerial view, the plane ride to the lodge is an unforgettable experience. The flight takes about 35 minutes and is carried out by an air travel provider not included in our daily rate.

For prices and availability, please contact:
Rico Taxi Aéreo: comercial@voerico.com.br (+55 92 9146-4570)

Should you choose this option, please notify our central reservation office, and our team will prepare to welcome you upon arrival or assist you upon departure.

THE WEATHER

The Amazon rainforest is a destination that can be visited at any time of the year: the landscapes change, following the river water levels, but they are always beautiful.

The tropics are usually warm all year, and the good thing is that we are overlooking the Rio Negro, which is a natural invitation to a refreshing dip!

SUMMER: FROM JUNE TO DECEMBER

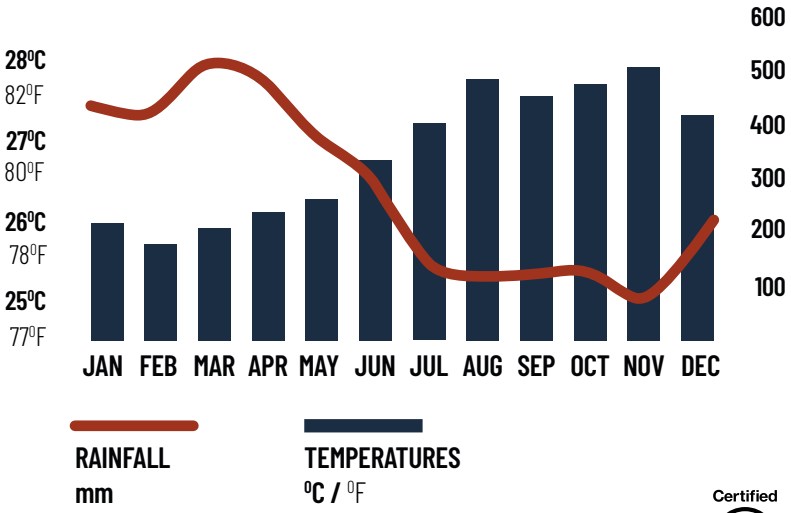
between 25°C/77°F and 33°C/91°F
thermal sensation of up to 38°C/100°F

hot sunny days,
short rainfall

WINTER: FROM DECEMBER TO JUNE

between 24°C/75°F and 30°C/86°F
thermal sensation of up to 35°C/95°F

less intense heat,
more frequent rainfall



WHAT TO PACK

We are located on the lower course of the Rio Negro within the tropical rainforest of the Amazon basin, therefore surrounded by water, in other words: swimwear is essential and will probably be used daily – not only in the endless waterways that distinguish our landscape, but also in our swimming pools.

As the weather is usually warm, bring cool and comfortable clothes, the kind that could be worn at a beach resort for example. It is also appropriate to bring flip-flops or easy wear shoes. And, of course, don't forget a cap or hat, and sunscreen. Rainfall is common, bringing more humidity and wind, so it is a good idea to have a raincoat or a windbreaker handy.

Trekking pants and closed shoes (sneakers or boots) are essential for trails in the forest. Upon arrival, you will receive a bottle of water which can be filled in water filters spread throughout the lodge.
It is not necessary to bring one.

CHECKLIST

Trekking pants **(ESSENTIAL)**
Closed shoes **(ESSENTIAL)**
Swimsuits
Light clothing
Lightweight shoes or Summer outdoor slippers
Hat or cap
Windbreaker or raincoat
Sunscreen
Repellent
Over-the-counter medicines/prescribed medications
Phone charger

Other extras that may be worthwhile:
Camera
Binoculars

CONNECTIVITY

The idea is to take advantage of your immersion in the Amazon rainforest to disconnect from the world's hectic lifestyle. But keep cool: we offer complimentary high-speed Wi-Fi to guests in all common areas and rooms. Nevertheless it's worth reminding that we are in the middle of the forest and the signal may fluctuate depending on weather conditions, also during tours there is no internet signal available.

All rooms are equipped with a Smart TV and the main streaming apps, as well as Sky satellite channels. Our reception is open 24/7 and can be contacted by phone, WhatsApp, or in person, providing you support throughout your stay.

CONVENIENCE

We have a small gift shop at the lodge dedicated to local artisanal products and a few basic amenity items. This means that you can't forget to pack the medications that are part of your daily routine (over-the-counter medicines and prescribed medications), as we can't always find specific products or drug brands.

ACTIVITIES

5 DAYS AND 4 NIGHTS

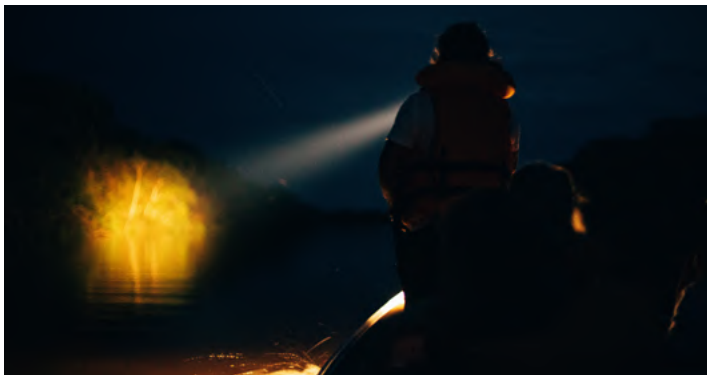
Below, you will find the tours that will be part of your 5 days and 4 nights experience here at the lodge:

Our activities are carried out in small groups and accompanied by field guides who have in-depth knowledge of the region.

Your daily schedule is prepared by our field team and delivered at the time of check-in, as it takes into account the weather forecast, water levels, and each guest's particularities. For this reason, the sequence of tours presented in this document may vary.

*Guests departing from the Airport to the Lodge on our regular transfer, between 1pm and 2pm, skip the afternoon tour on the first day.

*Guests returning to Manaus on our regular 8am transfer to board flights on the same day, between 1pm and 6:30pm, skip the morning tour on the last day.



NIGHT TOURS

In the darkness of night, under the bright stars, and the symphony of the animals, the forest becomes even more extraordinary. Explore its igapós in search of sloths, birds, snakes, and alligators.

SUNRISE CONTEMPLATION

The trip towards the spectacle of colors scattered out in the first rays of sunlight begins at dawn, when you can still hear the forest night nature sounds. Just fascinating!

HIKING ON DRY LAND FOREST

There is nothing more intriguing than exploring the secrets of the forest alongside someone who really knows it. Not only will you learn some survival skills, but you will also learn about its vegetation, its fruits, and the benefits of medicinal herbs, what becomes the highlight of a very special hike.

ACTIVITIES

5 DAYS AND 4 NIGHTS

TOUR IN ANAVILHANAS ARCHIPELAGO

An adventure through the infinite watercourses, lakes, and islands that make up one of the largest river archipelagos in the world. On the way, pink and grey river dolphins might show up to surprise you.

CANOEING THROUGH THE CREEKS AND THE FLOODED FOREST

To understand what the famous igapós are, the infinite reflections that form during the flood season, you literally have to penetrate the flooded forest. Aboard local wooden canoes, guests discover new landscapes at every angle.

RECREATIONAL FISHING

More than fishing piranhas and other native species in the streams, the tour is a unique opportunity to learn traditional stories from local fishermen.

*During the dry season, fishing is substituted for a trail through the islands.

ACTIVITIES

5 DAYS AND 4 NIGHTS

TECHNIQUES AND PRACTICE - BOW AND ARROW

An experience about technique, consciousness, and fun, with original artifacts from the Waimiri-Atroari ethnic group.

VISIT TO LOCAL COMMUNITIES

To understand life in the riverside communities, based on activities such as fishing, handicraft, and agriculture. The tour, guided by locals, is filled with storytelling, fun facts, and good vibes.

EXPEDITION ON A REGIONAL BOAT

Imagine spending an entire day gliding over the vastness of the Rio Negro in a typical local boat. Along the way, scenic plunges, time to relax in a hammock, and a memorable meal with grilled fish and other delights.

STOPOVER IN MANAUS

If you are planning to stay in Manaus for a night or two – and we think it is worth taking the opportunity – we should mention: The Hotel Villa Amazônia is a sister property in the historic center of the city. It is a remaining mansion from the rubber era, entirely restored and just a few steps from Teatro Amazonas, perhaps the city's main attraction. It features an internal garden and a natural stone pool, it is a real oasis within the hustle and bustle of Manaus. And it also hosts our bistro Fitz Carraldo, which mixes contemporary recipes and Amazon flavors.

If Villa Amazônia is not your hotel of choice, we recommend you to opt for hotels in the city centre, close to the main attractions and restaurants, and to avoid hotels close to the Airport, Ponta Negra, or the Industrial District (these are more distant areas, and the transfer pick-up time is earlier compared to other hotels due to the city traffic, which is not very convenient).
